

March Madness

Overview

For sports enthusiasts, March can be an exciting time of the year because of the NCAA March Madness basketball tournament. Bring some March Madness excitement to your school and classroom with these ideas to keep students active and engaged!

Bucket Basketball

Let the games begin! This activity will get students in the March Madness spirit and spark learning in the classroom. The game can be modified for any subject and grade level. It is also a great way to review subject material or to assess current knowledge prior to starting new content.

1. Write or pull your content questions, varying in level and intensity and centered on a subject or curriculum area of your choosing. For a longer game, write at least 40-50 questions!
2. Determine the total number of points needed to win.
3. Create a few small (3-4 inches diameter) balls. An easy idea is to make it with paper and wad it together surrounded by a few layers of
