

NEW LAW ALERT!

Assembly Bill 360 passed in 2021, requiring all tobacco retailers to verify age using scanning technology or an automated software-based system before making a sale of tobacco products in Nevada.

WHAT DOES THIS LAW MEAN FOR YOU?

- Assembly Bill 360 goes into effect on January 1, 2023.
- All tobacco retailers must use scanning technology or an automated software-based system to verify age before making sales of tobacco products.
- This law applies to the sale of any tobacco products such as cigarettes, electronic vapor products, or other tobacco products.
- An automated software-based system to verify age must be used on anyone under the age of 40.
- Violations of not using an automated software-based system will result in a \$100 civil penalty for the sales agent or clerk.
